

## **BIM SPECIALIST (Remote or Hybrid)**

Kramer and Marks Architects has been practicing in the Philadelphia area since 1977, providing a full range of architectural and interior design services. We have continued to grow through challenging economic times thanks to a service-first approach and a diverse portfolio.

We are seeking self-motivated individuals looking to become part of a strong mid-size firm in a busy remote collaborative environment.

### **Essential Functions:**

- Assist design team to create and maintain BIM models for projects.
- Ability to analytically gather, organize and interpret data to identify discrepancies, problems, or issues, and to obtain advice when precedents are unclear or unavailable.
- Collaborate with designers and architects to produce schematic designs, contract drawings, and construction administration documents.
- Develop images, diagrams, and renderings for presentations using multiple applications.

### **Qualifications:**

- Proficiency through at least 1 year of technical training or work experience with Revit Architecture in a collaborative multi-user environment is required.
- Proficiency in Lumion, Photoshop, and Illustrator is preferred.
- Experience in the AEC industry and an understanding of architectural design fundamentals is preferred.
- Must be able to complete tasks independently with intermittent direction from supervisory staff.
- Successful candidates will have solid organization and communication skills, as well as an ability to work well in a team environment.
- Candidates must reside in the continental United States, Eastern or Central time zone, and have access to a broadband internet connection.

Compensation will be based on skills and experience.

Full benefits package will be provided for full-time employment.

Interested and qualified candidates should email a resume and work examples in PDF format to [dmccauley@kramermarks.com](mailto:dmccauley@kramermarks.com).
